Professional Summary

Highly skilled and experienced **Lead Mobile Engineer** with **10+ years** of expertise in developing cutting-edge applications using **iOS, iOS(SDK), SwiftUI, Swift, Objective-C, Android, React-Native, JavaScript, and TypeScript** platforms. Skilled in project planning, task management using **Jira and Zoho**, and leading cross-functional teams to deliver high-quality mobile solutions. Proficient in resolving technical issues, mentoring team members, and ensuring alignment with business objectives. Adept at implementing Agile practices, optimizing workflows, and driving successful end-to-end project delivery.

Skills

- Team Lead, Product Planning
- SwiftUI, Swift, Objective-C, Java/Kotlin
- React-Native, JavaScript, TypeScript
- Payment Gateway
- iOS SDK Setup
- Control (Git) Design Guidelines
- Coding MVC/MVVM
- Jira, Zoho
- WebRTC/XMPP/SIP.js
- Xcode, VSCode, Android Studio

Experience

- | | |
|---|--|
| Team Lead (Mobile Platform)
Bankai InfoTech | 02/2023 to Current
Ahmedabad, India |
| <ul style="list-style-type: none">• Lead development of React Native (TypeScript) apps for iOS & Android, ensuring a scalable and maintainable codebase.• Built reusable UI components using Hooks and implemented smooth navigation with React Navigation.• Managed app-wide state using Redux Toolkit / Context API and improved data flow across multiple screens.• Improved performance using FlatList optimization, React.memo, and useCallback/useMemo to reduce re-renders.• Debugged and stabilized production builds using Crashlytics, ensuring smooth releases and reduced crash issues. | |
| Senior Software Developer (Tragofone)
Ecosmob Technologies | 09/2020 to 02/2023
Ahmedabad, India |
| <ul style="list-style-type: none">• Built scalable UI screens using React Native + TypeScript• Integrated SIP/VoIP calling features, chat UI, and call management screens• Improved app performance by optimizing image lists, rendering, and memory usage• Implemented secure storage using Keychain/Keystore + AsyncStorage• Worked on CI/CD builds and store release support (iOS TestFlight / Play Console) | |
| Senior Software Developer
Vinove Software And Services | 09/2019 to 04/2020,
Noida, India |
| <ul style="list-style-type: none">• Developed iOS online education apps in Swift with scalable MVVM architecture.• Integrated Twilio SDK for real-time live video/audio classes with smooth join experience.• Implemented class status, attendance, and parent monitoring features for better engagement.• Managed end-to-end delivery, including API integration and performance optimization. | |
| Senior IOS Developer
Dignitech Media Work Pvt. Ltd | 02/2019 to 08/2019
Noida, India |
| <ul style="list-style-type: none">• Designed, developed, and deployed high-performance iOS applications with a strong focus on UI/UX.• Built scalable features using Swift & Objective-C, following clean and maintainable coding practices.• Integrated REST APIs, handled JSON parsing, and implemented secure authentication flows.• Improved app performance by optimizing memory usage, crash fixes, and smooth screen rendering. | |

IOS Developer
Startele Tech Pvt. Ltd,

01/2017 to 01/2019
Noida, India

- Developed iOS apps using **Swift & Objective-C** with **UIKit** expertise.
- Implemented **CoreData, CoreAnimation, AVFoundation** features.
- Integrated **REST APIs**, authentication, and error handling.
- Optimized performance and handled **App Store deployment**.

Software Developer
Ebizon NetInfo

03/2016 to 11/2016
Noida, India

- Developed iOS **eCommerce** apps with clean, user-friendly **UI/UX** and smooth navigation.
- Integrated **REST APIs** for product listing, cart, checkout, and order management.
- Implemented secure **Apple Pay** payment flow with proper transaction handling.
- Added **multilingual (localization)** support to improve accessibility across regions.

Projects

Stake Rent with a Return- [App Store](#)

- Contributed to **Stake: Rent with a Return**, a fintech iOS app, developing features in **Swift and SwiftUI** to deliver cash-back rewards and rental payment insights.
- Implemented **SwiftUI-based UI, API integrations, and MVVM architecture** for a scalable and maintainable codebase.
- Integrated REST APIs for **real-time reward data**, rent status, and secure user information handling.
- Implemented **navigation, data binding, and reusable UI components** to ensure a consistent and responsive user experience.

BVI Pluto DID - [App Store](#)

- Developed key features for **BVI Pluto DID**, an enterprise communication iOS app enabling global DID calling and advanced telephony features, using **Swift & SwiftUI**.
- Implemented **call control features (forwarding, transfer, conferencing), contact integration, and messaging UI** for enhanced business communication workflows.

Tragofone - [App Store & Google Play](#)

- Contributed to **Tragofone**, a customizable, **white-label VoIP softphone app** enabling enterprise SIP-based calling, messaging, and conferencing across mobile platforms, including iOS and Android.
- Developed cross-platform mobile features using **React Native**, leveraging a shared JavaScript/TypeScript codebase to deliver consistent communication experiences on both iOS and Android.

Reliance Global Call - [App Store](#)

- Developed core features for **Reliance Global Call**, a native iOS app enabling international voice and messaging services using **Swift & native iOS frameworks**, including contacts integration and backend communication APIs.
- Implemented integrations for **contacts access, call dialing UI, message sharing, file and media transmissions**, and custom group communication features.

Sultan Center - Online Shopping - [App Store](#)

- Developed core functionality for **Sultan Center – Online Shopping**, a native iOS ecommerce app using **Swift & UIKit**, integrating product browsing, cart & checkout, and loyalty reward features.
- Built key shopping features using **Swift and UIKit**, including **product browsing, category filtering, search, cart management, and secure checkout flows** to deliver seamless user experiences.

Certifications

High-Performance Award Certificate-2024 - Bankai InfoTech

Awarded for exceptional dedication, outstanding performance, and significant contributions to the success of projects and team goals. Recognized for consistently exceeding expectations, driving innovation, and delivering high-quality results. Acknowledged for playing a key role in enhancing team performance and supporting the company's growth.
